

The daughter of HIGH CHAPARRAL, three-year-old 'Space Talk' was one of the first generation of our horses used on the revolutionary Kurtsystems.

Homebred filly of Kingwood Stud, Space Talk is the one who experienced Kurtsystems' performance will continue her career in America having sold for 80,000GNS to Blandford Bloodstock at The Tattersalls Autumn Horses in Training Sale. Harry Dunlop who is the trainer of Space Talk is happy of its achievement of such price.

The session-topper on the final day was Kingwood Stud's three-year-old filly SPACE TALK who was purchased by Blandford Bloodstock's Stuart Boman for 80,000 guineas. The daughter of HIGH CHAPARRAL out of the RESET mare RETAKE was victorious on her latest start at Lingfield for Harry Dunlop and was sold with a Timeform rating of 92p.

"She is a consistent filly as evidenced by her four second placings, she won last time out well putting in some good sectionals. She has form on faster ground, is by a good stallion in High Chaparral, and she has a pedigree. She will suit the racing programme in the US," said Boman. (Tattersalls)

Harry Dunlop said in his testimonial to Kingwood Stud: "Kingwood Stud Management have done an excellent job on the filly I train, SPACE TALK (GB) who won at Lingfield on the 4th October 2018. She has been trained on KURTSYSTEMS along with the normal gallops in Lambourn and it has been very successful. I would not hesitate to recommend this training system to other Trainers and Owners."
